- Contract work (PHP, Java, and ActionScript)

James Madison University B.S. Digital Interactive Media

- Graduated with honors (Magna cum laude) from the School of Media Arts & Design.
- Received highest department award, Academic Excellence in Digital Media.

Open Source

bvaughn/suspense
APIs to simplify data loading and caching with React Suspense

bvaughn/react-resizable-panels
React components for resizable panels

bvaughn/use-context-menu
React components for displaying configurable context menus

bvaughn/react-window
bvaughn/react-virtualized
React components for rendering large lists and tabular data

bvaughn/planner
Interactive Canvas-based planning tool

bvaughn/progress-estimator
Animated progress bar that estimates duration of CLI tasks

bvaughn/js-search
bvaughn/js-worker-search
bvaughn/redux-search
Client-side search utilities for JavaScript and JSON data

bvaughn/react-error-boundary
Reusable React error boundary component

bvaughn/react-flame-graph
Visualizes profiling data; used in the React DevTools Profiler

bvaughn/react-highlight-words
bvaughn/highlight-words-core
React components for highlighting inline search matches

bvaughn/react-virtualized-select
bvaughn/react-select-fast-filter-options
Fast React dropdown menus with custom UIs

bvaughn/react-presents
React slideshow framework

bvaughn/task-runner
Utilities to simplify dependency management for async tasks

bvaughn/angular-form-for
Define complex HTML forms with client or server-side validations

sourceforge.net/projects/nennius
MVC framework for building complex CRUD applications in PHP
